Blog

I've been coding for a while, starting with JavaScript and learning Python and Typescript afterwards. I worked at big companies in Portugal, Netherlands, and the UK.

I'm interested in helping others to build new projects fast and efficiently. At the moment, I focus mostly on React.

Effective communication is an essential tool I use for setting clear expectations with my clients and mentees. You will find in me a responsible and trustworthy partner for your business.

I especially like giving my mentees the full picture of how things work. I'm very patient and passionate, so even if I don't know how something works, I'll learn it and teach how you can do it too.

Knowledge

Languages: Javascript, Typescript and Python.

Databases: PostgreSQL, MongoDB

Frameworks / Libs: React, NextJS, Gatsby, React Native, NodeJS.

Platforms and Tools: AWS Infrastructure, Git, Serverless.

Others: CI/CD, TDD, SEO, APIs REST, GraphQL, Scrum.

Education

Computer Science - Universidade Federal de São João del Rei

- Computer Science

- 2014 / 2017 (incomplete)

Language

Portuguese: Native

English: C1 (CEFR)

Experience

Game Analytics - London - GB

- Analytics for Mobile Games
- React, AWS, Node, UI and UX
- 2019 / ~

At GameAnalytics I'm responsible for being the leader of the Front End team, and develop our new platform, made with React (with Context), we have to show data from more than 150M users daily, even on real time.

Bombinate - London - HB

- React, AWS, Node, UI and UX
- 2020 / ~

At Bombinate, I'm responsible for the whole checkout process, that is very complex, taking in account the scale and the amount of features. We have a small team handling hundreds of orders per month, with very strict E2E tests and a high code coverage.

Intrasurance - Lisbon - PT

- Insurance Company
- React, Redux, Azure DevOps, UI and UX
- 2018 / 2019

Intrasurance was a segment of Verzekeruself, one of the biggest insurance companies in Europe. My job was to create a widget to embed on customers websites and give them a way to sell our insurances, we used React and Redux for it.

Norio Matsubara - Faro - PT

- Investor

- React, Postgress, MongoDB, Node, Scrum, UI and UX
- 2017 / 2018

My job with Norio was to be his right hand. He is an investor that has capital invested in several startups all over the globe, and I was the one who analyzed the technical part and helped when needed, working on several different fields, but mostly decreasing the technical debt and applying agile processes.

Mestres Ninja - Curitiba - BR

- Markerplace for Freelancers
- React, MongoDB, Portgress, Python
- 2016 / 2017

I was the founder of this Startup with 2 other friends. We built a dashboard where customers could get freelancers on a "Uber" way, the "most active" developers received the notification and went to the customer.

Unlockers - Curitiba - BR

- Digital Web Agency
- JQuery, PHP, MySQL, UI and UX
- 2014 / 2016

Unockers was my first experience with web development. There I learned how to deal with customers and how to work with HTML, CSS, JS, PHP, and MySQL. I've built several small and medium websites using Magento, WordPress, and simple static ones.
